Thanks Derrick and Charlotte for flagging for the press and thanks Dave for following up. I expect many media outlets will reach in with similar questions. Feel free to send them to us.

All the best  
Doug

Hi Dave,

That sounds good and thank you for following up with him. I agree with your approach.

Thanks - Derrick

Hi Derrick, I'll touch base with the reporter (we've worked with her before). I think the bottom line is, since her focus is on how the Biden Administration will approach cleanups, we really don't want to give an interview this week. If she calls you directly please just refer her to me.

Thanks!  
Dave

Hi Dave & Charlotte –

FYI – the Haverhill landfill is being closed out under the MassDEP Bureau of Solid Waste. Please let me know how you would like to proceed.

Thank you - Derrick

**Subject:** Media Request -- Haverhill Superfund Site -- WBUR

Hi Charlotte, hi Derrick,

My name is Miriam Wasser and I'm an environmental reporter with WBUR. I'm working on a story about how some environmental advocates are hoping the Biden administration puts more focus (and money) into protecting superfund sites from climate change, and I'd love to speak to you for it. As you might know, a recent Union of Concerned Scientists report identified a number of hazardous waste sites along the eastern and gulf coasts that are vulnerable to sea level rise, and after going through the list, I've decided to use the Haverhill Landfill as an example for my story.

Derrick, I'd love to talk with you about the superfund site and the ongoing remediation process, and Charlotte, I'd love to talk to you about how the community has been involved in the process given that it sits across the river from a populated area. (Also, if there are any groups or activists who have been particularly involved, please feel free to pass on their names)

If there's any way a WBUR photographer and I could get a tour of the location, that would be really helpful, but if that is not possible, Zoom interviews should suffice. Please let me know what your schedules are like in the next week or so.

Thank you very much,  
Miriam
